Technical parameters required for reconciliation

MANIK TRADING technical reference table

Parameter	A179 check	ST35.8 check
Chemistry	C, Mn, P and S limits in ordered edition	DIN text and actual certificate limits
Mechanical properties	YS, TS and elongation in delivery condition	Values and specimen basis in the DIN edition
Heat treatment	Final condition after cold drawing	Recorded delivery condition
Surface and dimensions	OD, WT, length, straightness and surface	Contract tolerances and surface quality
Certificate	Heat number and test results	Trace legacy name to the actual document

Source / basis: ASTM International — A179/A179M
