Hydrotest parameters to record

MANIK TRADING technical reference table

Parameter	Unit/example	Control
Test pressure	MPa, bar or psi	Document basis and gauge accuracy
Hold time	s or min	Time at stabilized pressure
Fluid and temperature	Water and °C	Venting, safety and temperature effect
Product identity	Heat/lot/pipe number	Each-length traceability
Result	Leak/no leak plus disposition	Leak location, repair and retest

Source / basis: ASME B31.1 Power Piping
